

South Decatur Community Center Realizes A Dream

After years of dreaming and then planning, the Community Center in the city of Decatur's Oakhurst Village has secured a permanent home in the renovated east wing of the Old Scottish Rite Hospital. Progressive Redevelopment, Inc., who purchased and renovated the property, is leasing the hospital's east wing, as well as the Elizabeth Wilson House located at the site, to the South Decatur Community Center for \$10 per year for 19 years. At the end of that time, the Community Center can purchase the buildings for an additional \$10.
